

# Career Introduction Module

---

Slide 1 should be showing.

1. Hand out pre-test to students. Allow 10 minutes for completion.
  2. Once completed, say.....*Today we are going to discuss Health Careers. Each student should think of different health careers.*
  3. Have each student name one health career. If possible, go around to each student 2-3 times. If the group begins slowing down, simply jump in and say...*We were only able to go around the room # times. Realize that there are over 200 different health careers. No matter your interest, there is a career in health that is related.*
- 

## SLIDE 2

1. Read slide to students. This slide discusses the SC State Education Standards and the relevance of this presentation.
- 

## SLIDE 3

1. Read slide aloud to students.
  2. Say...*Does anyone have living grandparents and/or great-grandparents.*
  3. The expectation is that at least a few hands will go up. Say...*How old are they?*  
Allow time for responses.
  4. Say...*This is evidence that people are living longer lives. Not long ago, people could only expect to live to just over 50.*
- 

## SLIDE 4
